

# KOSTIANTYN OVSIANNIKOV

My academic interests include *corporate governance*, *labor economics* and *determinants of innovation* from the varieties of capitalism and resource-based perspectives. In my dissertation, I explored how the pursuit of shareholder-value by management has affected labor policies at large Japanese enterprises.

My current research project funded by the **JSPS Grant-in-Aid for Young Scientists (B)** focuses on the market perception of corporate innovations in Japan.
